Sprint 2 Plan

Product: Digital Butler
Sprint Completion Date: 10/29
Last Revised: 10/16

Goal:
- Begin to develop the UI of the Digital Butler web application.
- Familiarize ourselves with the D3.js library so that we can start visualizing data.

User story 1:
- ● (8) As a developer, I will begin to develop the UI of the main part of the web application, so that the website becomes easier to use and understand.

    Task 1: Learn how to make windows with Angular. (1)

    Task 2: Add interactivity with windows, i.e draggable windows, closeable/openable windows. (8)

User Story 2:
- ● (5) As a developer, I want to be proficient with D3.js library, so that I will know this technology to create data visualization.

    Task 3: Learn D3.js library and other technologies.
    Task 4: Learn how to implement libraries in Angular.

Team Roles:
- Juan Andreas (Product Owner)
- Brianna de Carvalho Kavanagh (Scrum Master)
- Nima Bazofti (Team Member)
